**Section 403(r)(6) Notification**

Dear Sir or Madam:

In accordance with the requirement of section 403(r)(6) of the Federal Food, Drug and Cosmetic Act, **Leiner Health Products** notifies the FDA that it has begun using the following phrase and statements:

**Three unique multivitamin formulas for optimal energy and well being**

**Your Life@ Women's Cycle Multivitamin** is a unique combination of three formulas, especially made to coincide with women's special cycles of the month. Designed to be used by women who have a 28-day cycle, are hormonally regulated, or who use oral contraceptives. All formulas include Soy isoflavones for female support along with extra B-vitamins, which can be lacking from a woman's diet and negatively impacted due to oral contraceptives. Additionally, each individual formula includes special nutrients that will enhance one's health and provide important benefits for the different cycles of the month:

**Maintenance Formula** -A blend of important ingredients to support women's needs during their regular cycle. Red Raspberry leaf is included for female support.

**Premenstrual Formula** - Feverfew and Kava Kava have been included along with additional Vitamin K and Vitamin B-6 to support female health during the premenstrual cycle.

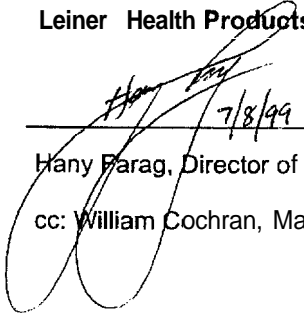

**Menstrual Formula** -To meet special needs that women tend to experience at this time of the month, iron is included, as well as a special type of "women's" ginseng - notoginseng. Other beneficial ingredients include Feverfew, additional Folate, Niacin, Molybdenum, Manganese, and Gamma Linolenic acid.

on the following product:

**YourLife® Women's Cycle™ MULTIVITAMIN**

Very truly yours,

**Leiner Health Products**
